AgenticCareerBoost — Smoke Test

Automated Build Verification

April 20, 2026

Chapter 1

Preamble Verification

Key takeaway: If this PDF compiled, the shared preamble loads correctly and all required packages resolve.

This document verifies that the shared LaTeX infrastructure for the AgenticCareerBoost project compiles without error.

1.1 Macro tests

- Project name: AgenticCareerBoost
- Sprint ID: S-000
- Repository path reference: `AGENTS.md`
- Role reference: ORCHESTRATOR
- Agent reference: DEVELOPER
- Workflow reference: `sprint`
- File name: `state/current.md`
- Key term: ***path-based routing***

1.2 Safe image inclusion

1.2.1 Missing image (should render placeholder box)

[Missing Image]

figures/screenshots/nonexistent.png

Replace this placeholder with the actual screenshot.

Figure 1.1: This image does not exist — a placeholder box should appear.

1.2.2 Another missing image (placeholder branch exercised again)

[Missing Image]

figures/screenshots/also-nonexistent.png

Replace this placeholder with the actual screenshot.

1.3 TikZ diagram

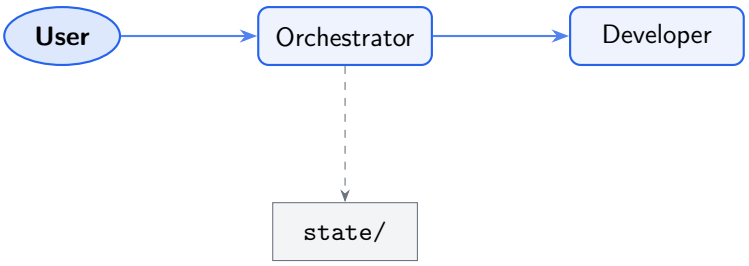

Figure 1.2: Minimal agent interaction diagram.

Common pitfall: If this document fails to compile, check that TeX Live is installed with all packages listed in `preamble/agenticboost.sty`.
